

*ZONK instructions. Print off this sheet (preferably on cardstock paper), cut out the boxes, and place them in a cloth bag, paper bag, or manilla envelope and mix them up. Split the children into two teams, and ask Team 1 a question. If a child answers correctly, he/she comes up and (without looking) draws out one card. If it has points on it, their team is awarded that number of points. They can continue to draw as many times as they like, one card at a time, earning points. HOWEVER, if they draw a ZONK card, they lose all the points they drew for that round, so they don't want to draw too many!! Game continues until the team with the most points wins.*
